

Summary of Installation Activities: 4/12/2006

L1 Calorimeter Trigger Upgrade

1. I finished cabling M108. That is the 8th rack cabled out of 10.
2. I had a short day at D0 today, so I did not pulse M108 today.
3. So, shorted cable count is still 14 out of 6x128 channels.
4. We have the ORC as of last night.
5. Mike and Ted continued to work on TAB/GAB – L2/L3 links and related issues while Sabine worked on algorithms and firmware.

Please see the web for details. URL is <http://d0server1.fnal.gov/users/selcuk/www/default.htm>. This information is on the trigger online logbook also.
